THE FEDERAL REGISTER SUBJECT INDEX

The Subject Index to the daily *Federal Register* is published separately, covering the contents of the *Federal Register* as follows: Monthly for the months of January, February, April, May, July, August, October, November, and December; quarterly for the quarters ending in March, June, and September; and annually for the calendar year.

Entries in this Index are carried primarily under the names of the issuing agencies, with the most significant subjects additionally carried in appropriate alphabetical position.

This Subject Index should be distinguished from the numerical codification guide (List of CFR Sections Affected) which is also published separately. The numerical guide is designed for quick checking in the *Code of Federal Regulations* numbering system of provisions whose numbers are already known or have been learned through use of the Subject Index.
